

Welcome to M & M Home Care! In my role as the President and Director of Nursing, I aim to provide leadership to all of our staff as well as nursing oversight to each patient to ensure all their individual healthcare needs are met. I believe in our **SMALL TEAM** model that works to integrate all aspects of health care, to improve physical health, behavioral health, access to community-based services and the management of catastrophic and chronic conditions.

Using the **SMALL TEAM** approach, each patient is carefully partnered with a team of carefully selected, appropriate care staff based on the patient's scope of need, personality type, and common interests. Home Health Aides provide care services according to the individual Plan of Care developed by the assigned RN, and record detailed notes to ensure vigilant monitoring of their patients at all times.

Each patient is unique and should have a Home Care agency that treats them as such; this is why M & M only hires professional, experienced, reliable and compassionate Care Staff.

M & M Home Care is an active member with many organizations including the Michigan Brain Injury Provider Council, Brain Injury Association of Michigan, Rehabilitation and Insurance Nurse Council, the Coalition Protecting Auto No-Fault and the Livonia and Plymouth Chambers of Commerce.

Thank you for allowing me to introduce M & M Home Care to you. Thank you for joining me in celebrating *The M & M Home Care Way*.

Sincerely,

A handwritten signature in blue ink that reads 'Michael Malecki'.

Michael Malecki, RN

President/CEO
